☐ **Office Policy Regarding Payment For Services & Insurance Reimbursement:**

I understand and agree that health insurance policies are an arrangement between an insurance company and myself. Furthermore, I understand that the Miami Beach Family & Sports Chiropractic Center will prepare any necessary reports and forms to assist me in collecting from my insurance company, and that any amount authorized to be paid to Miami Beach Family & Sports Chiropractic Center, Inc., will be credited towards my account upon receipt. However, I clearly understand and agree that ALL SERVICES RENDERED ME ARE CHARGED DIRECTLY TO ME AND THAT I AM PERSONALLY RESPONSIBLE FOR PAYMENT, including payment of any applicable insurance deductible and/or insurance co-payments. I also understand that if I suspend or terminate my care and treatment prior to the doctor releasing or discharging me from care, any fees for professional services rendered to me will be immediately due and payable.

☐ **Authorization To Release Medical Information:**

I authorize the release of any medical information necessary to process my insurance claim(s). I also certify that all insurance information given to this healthcare provider is correct and complete.

Patient'sSignature:_____ Date:____/____/____ Witness:_____

☐ **Consent For Physician To Proceed With Examination & Treatment:**

Although extremely rare, there are risks of being treated with physical therapy, massage therapy, rehabilitation and chiropractic, including sprains, strains, fractures, herniation, burns, bruises, strokes and even death (1 in 5.85 million manipulations). I understand that if I am accepted as a patient by the physicians of the Miami Beach Family & Sports Chiropractic Center, I am authorizing them to proceed with any examination & treatment that may be necessary. Any risks regarding examination & treatment have been discussed and explained to my satisfaction and I understand the doctor feels the benefits outweigh the risks. I voluntarily consent to the rendering of care, including examinations, treatment and performance of diagnostic procedures. I understand that I am under the care and supervision of the attending physician and it is the responsibility of the staff to carryout the instructions of such physician(s).

Informed Consent to Care

You are the decision maker for your health care. Part of our role is to provide you with information to assist you in making informed choices. This process is often referred to as “informed consent” and involves your understanding and agreement regarding the care we recommend, the benefits and risks associated with the care, alternatives, and the potential effect on your health if you choose not to receive the care.

We may conduct some diagnostic or examination procedures if indicated. Any examinations or tests conducted will be carefully performed but may be uncomfortable.

Chiropractic care centrally involves what is known as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae. Potential benefits of an adjustment include restoring normal joint motion, reducing swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well-being.

It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to cure. As with all types of health care interventions, there are some risks to care, including, but not limited to: muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, burns and/or scarring from electrical stimulation and from hot or cold therapies, including but not limited to hot packs and ice, fractures (broken bones), disc injuries, strokes, dislocations, strains, and sprains. With respect to strokes, there is a rare but serious condition known as an “arterial dissection” that typically is caused by a tear in the inner layer of the artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. The best available scientific evidence supports the understanding that chiropractic adjustment does not cause a dissection in a normal, healthy artery. Disease processes, genetic disorders, medications, and vessel abnormalities may cause an artery to be more susceptible to dissection. Strokes caused by arterial dissections have been associated with over 72 everyday activities such as sneezing, driving, and playing tennis.

Arterial dissections occur in 3-4 of every 100,000 people whether they are receiving health care or not. Patients who experience this condition often, but not always, present to their medical doctor or chiropractor with neck pain and headache. Unfortunately a percentage of these patients will experience a stroke.

The reported association between chiropractic visits and stroke is exceedingly rare and is estimated to be related in one in one million to one in two million cervical adjustments. For comparison, the incidence of hospital admission attributed to aspirin use from major GI events of the entire (upper and lower) GI tract was 1219 events/ per one million persons/year and risk of death has been estimated as 104 per one million users.

It is also important that you understand there are treatment options available for your condition other than chiropractic procedures. Likely, you have tried many of these approaches already. These options may include, but are not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections, and surgery. Lastly, you have the right to a second opinion and to secure other opinions about your circumstances and health care as you see fit. I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.
